EASY-CUT 800 SERIES SAW

Automatic single blade cross-cut saw

DESCRIPTION

The MiTek Easy-Cut 800 series saws are an advanced single blade saw with a three or four axis controller. The cutting blade is 800mm diameter. The saws are fully automatic and should be networked which allows the saw files to be sent direct to the saw and can allow remote support via TeamViewer. (You will need a small saw to cut smaller members)

FEATURES

- 6.0m infeed conveyor with back rail, unpowered rollers
400mm long, 76mm dia @ 500mm centres
- 6.5m outfeed conveyor with guide rail, unpowered rollers
